**WIDA Screener for Kindergarten**

WIDA Screener for Kindergarten is an individually administered paper-and-pencil test that helps educators identify students as English learners. It is typically given to students one time when they enter your school or district as they start kindergarten or first grade.

Actual testing time can vary from as little as 10 to as much as 40 minutes. To ensure enough time for each student:

- Schedule 30-minute test sessions if you will give an oral language test by administering the Listening & Speaking section only.
- Schedule 45-minute test sessions if you will give the full test by administering all sections (Listening & Speaking, Writing, and Reading).

Visit your member/state page for details on your screening policies and guidance on test administration.

**Get Ready for Testing**

Complete the training course and read the [WIDA Screener for Kindergarten Test Administrator Manual](#) before you pass the quizzes and administer the test. Visit your member/state page to determine how often you need to recertify and whether any additional training opportunities are available to you.
