

## Webinar Questions and Responses

### Online Reporting System (ORS) Webinar 12/15/2016

### Understanding the 2016-2017 Reporting System

- 1- Will data from DRC on ISAT Science and EOCs be included in AIR's System?  
Answer: No, only data generated in the AIR System from this point forward will be available in the AIR Online Reporting System. Districts needing historical data should use the ADEA App on the SDE Website:  
<https://apps.sde.idaho.gov/adea> (Assessment Data Export Application)
  
- 2- Since the Alternate Assessment is now in AIR, should all students be included in a teacher's roster?  
Answer: Yes, you can include them. How you manage rosters is a district or school decision. If a student is assigned to a teacher, I would include them in their roster.
  
- 3- Will "Retrieve Student Results" all for more than one file at a time? Ex. All grade 3 across a district?  
Yes, please refer to slide 42 that illustrates how that report would be generated. There are a number of options from which a district can select based on what they would like to include, in addition to the way data is reported, PDF or Excel.
  
- 4- When will the Air Ways guide be available?  
Answer: The SDE and AIR are in the process of finalizing it now, so should be in a week or so. First round of edits have been completed.
