

# Idaho Migrant Education Program Continuation of Services (COS) Guidance

Updated: 11/21/16

The “continuation of services” provision found in Section 1304(e) of the statute provides that (1) a child who ceases to be a migratory child during a school term shall be eligible for services until the end of such term; (2) a child who is no longer a migratory child may continue to receive services for one additional school year, but only if comparable services are not available through other programs; and (3) secondary school students who were eligible for services in secondary school may continue to be served through credit accrual programs until graduation.

- *Continuation of Services (COS) does not apply to those over the age of 21 or are no longer eligible for a free public education through Grade 12.*
- *COS is a permissive authority, not a requirement. Under 1304(e)(2) and (3), only students who received services at any time during their 36-month eligibility period may continue to receive services (not necessarily the same service).*
