AOC Meeting: Survey will be sent out and returned by June 3. Board agreed that a framework with the lists of indicators for the accountability plan will be presented to the Idaho State Board of Education at their June meeting.

The final decision about which indicators, beyond the required indicators, will be made following analysis of the survey. Decisions about how the indicators will be calculated and used for accountability will not be made by the AOC, but by staff at the SDE in collaboration with staff from the OSBE.
