MEET THE TEAM
Idaho Technology Facilitators for Software

Introducing Carly Green, Lyndy Higgins and Karlie Sudweeks – a dynamic team of experienced educators dedicated to helping teachers navigate the world of educational technology. Integrating tech software tools in the classroom can be a game-changer for creating modern learning environments, expanding student opportunities, and equipping learners with essential skills.

Where do I start?

That's where these facilitators come in, They bring years of expertise in technology integration across Idaho. They offer tailored training, resources, virtual meetings, and tools to help teachers confidently implement and understand the latest software, ensuring effective support for students.

These Facilitators help with programs like: Adobe-Creative Cloud, MOS, Brain Buffet, Certiport, and Coding in Minecraft.
