"Best Online Mathematics Instructional Software"

Professional Services

# TRANSFORM GOOD TEACHING INTO GREAT TEACHING

Think Through Math is committed to your success by offering goal-centered onsite and online professional training services. Think Through Math will meet with school and district leaders to develop a personalized, ongoing implementation and professional development plan that best supports your math intervention needs.

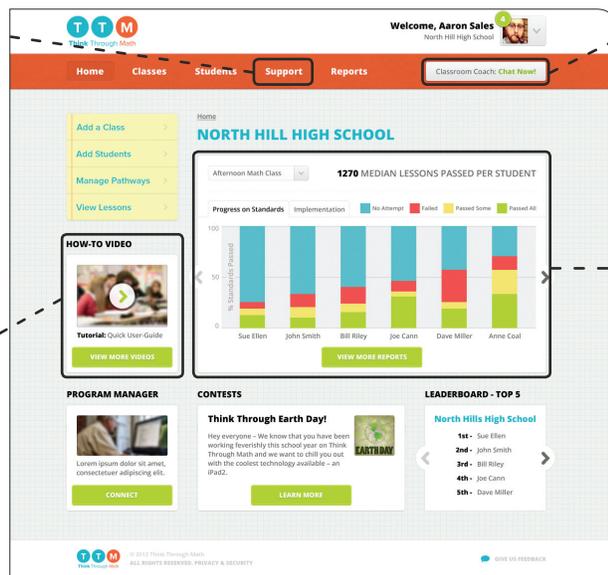

- On-site Implementation Training to ensure a successful program launch
- Ongoing coaching, with onsite and online options, to review data, revisit goals and retrain as needed
- Follow-up Mastery Training to strengthen effectiveness
- The heart of our professional services program is understanding and leveraging data to drive program effectiveness

## Embedded Professional Support

**24/7 Resources**  
Resources to build expertise include downloadable classroom resources for teachers and leaders, along with live and recorded online webinar trainings and exclusive events.

**Video On-Demand**  
From their Dashboard, teachers can access short, practical video tutorials that focus on using the program effectively and model teaching.

**Classroom Coach**  
No more waiting for returned calls. Educators can rely on our expert classroom coaches while they teach.

**Data Upfront**  
Teachers have anytime/anywhere access to the most important implementation and student performance data to help drive instructional decision-making and planning.
