Code	Standard
	Hinduism, Buddhism, and Confucianism and Indigenous knowledge and belief systems.

2. Geography

Students studying World Geography will analyze the spatial organization of people, places, and environment on the earth’s surface, explain how human actions modify the physical environment and how physical systems affect human activity and living conditions, trace the migration and settlement of human populations on the earth’s surface, analyze the human and physical characteristics of different places and regions, and explain how geography enables people to comprehend the relationships between people, places, and environments over time.

Code	Standard
6-9.WG.2.1	Apply latitude and longitude to locate places on Earth.
6-9.WG.2.2	Describe the uses of technology, such as Global Positioning Systems (GPS) Geographic Information Systems (GIS), and satellite and aerial imaging.
6-9.WG.2.3	Describe the relative location of people, places, and objects by using positional words, including but not limited to cardinal directions and distance.
6-9.WG.2.4	Locate, map, and describe the climate of regions throughout the world and analyze their impact on human activity and living conditions.
6-9.WG.2.5	Identify major biomes and explain ways in which the natural environment and climate of places in regions throughout the world are related to affect settlement patterns and everyday life.
6-9.WG.2.6	Analyze and give examples of the consequences of human impact on the physical environment.
6-9.WG.2.7	Identify the names and locations of countries and major cities in regions around the world.
6-9.WG.2.8	Describe major physical characteristics of regions throughout the world.

Code	Standard
6-9.WG.2.9	Identify patterns of population distribution and growth in regions throughout the world and explain changes in these patterns that have occurred over time.
6-9.WG.2.10	Compare and contrast cultural patterns in regions throughout the world, such as language, religion, and ethnicity.
6-9.WG.2.11	Analyze the locations of the major manufacturing and agricultural areas in regions throughout the world.
6-9.WG.2.12	Analyze the distribution availability of natural resources in regions throughout the world.
6-9.WG.2.13	Give examples of how both natural and technological hazards have impacted the physical environment and human populations in regions throughout the world.
6-9.WG.2.14	Give examples of how landforms, water, climate, and natural vegetation have influenced historical trends and developments in regions throughout the world.
6-9.WG.2.15	Describe various views that affect environmental issues in regions throughout the world.
6-9.WG.2.16	Explain how human-caused changes in the physical environment in one place can cause changes in another place such as irrigation, air pollution, water pollution, and deforestation.

3. Economics

Students studying World Geography will explain basic economic concepts and identify different influences on economic systems.

Code	Standard
6-9.WG.3.1	Describe abundance, scarcity, and distribution of resources; explain their impact on decision making such as trade, settlement, stewardship of the natural environment, and development of infrastructure.
6-9.WG.3.2	Describe how different economic systems guide decisions about what to produce, how to produce, and for whom to produce.

Code	Standard
6-9.WG.3.3	Compare the standard of living of various regions today using quality of life indicators and discuss their impact on everyday life locally, nationally, and globally.
6-9.WG.3.4	Analyze current economic issues using a variety of sources representing multiple perspectives.
6-9.WG.3.5	Identify economic connections between local, national, and global economies in regions throughout the world.
6-9.WG.3.6	Explain how the demand for important natural resources evolved in regions throughout the world.
6-9.WG.3.7	Investigate how physical geography, natural resources, specialization, and trade have influenced the way people meet their material needs.

4. Civics and Government

Students studying World Geography will build an understanding of comparative government.

Code	Standard
6-9.WG.4.1	Identify the major forms of government in regions throughout the world and compare them with the government of the United States.

5. Global Perspectives

Students studying World Geography will build an understanding of multiple perspectives and global interdependence.

Code	Standard
6-9.WG.5.1	Discuss how social institutions, including the family, religion, and education, influence behavior in different societies in regions throughout the world.
6-9.WG.5.2	Give examples of how language, literature, and the arts shape the development and transmission of culture in regions throughout the world.
