

DRC expects the following technology updates to result in WIDA AMS being unavailable. See below for specific dates and times. We encourage you to share these dates and times with relevant stakeholders as necessary.

Other planned infrastructure updates and outages will be communicated to SEAs via WIDA Wednesday, two weeks in advance when possible.

### **WIDA AMS Updates**

WIDA AMS services may be unavailable for approximately 60-90 minutes during each update.

Updates take place every four weeks on Thursdays, starting at 8:00pm Central Time in the months of June through February. From March through May, updates take place starting at 8:30pm Central Time.
