

<b>Claim 1: Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.</b>	
<b>Target 9. CENTRAL IDEAS:</b> Identify or determine a main idea and the key details that support it, or summarize key details using evidence from the text.	
<b>Clarifications</b>	<p>Items may assess a main idea in the text. Items will not ask students to summarize the entire text; students will summarize a main idea or a key detail.</p> <p>Items may assess the key details in the text that support a main idea.</p> <p>All items should require students to cite specific textual evidence to support conclusions drawn from the text(s).</p>
<b>Standards</b>	<p><b>RI-1</b> <u>Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text.</u></p> <p><b>RI-2</b> <u>Determine the main idea of a text and explain how it is supported by key details; summarize the text.</u></p> <p><b>NOTE:</b> <u>Underlined content</u> (from related CC standards) shows what each assessment target could assess.</p>
<b>Depth of Knowledge (DOK)</b>	<p>DOK 2, 3</p> <p>Short Text (Constructed Response) will always be DOK 3.</p>
<b>Stimuli/Passages</b>	<p>Texts will develop a main idea, key events, and/or procedure(s).</p> <p>Refer to Smarter Balanced Assessment Consortium: English Language Arts &amp; Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications for more information on informational text types.</p>
<b>Dual-Text Stimuli</b>	<p>When a dual-text set contains one literary and one informational text, the informational text (text #1) is the primary focus, and the set of items must include items from the informational stimulus as well as items written across both texts. The literary text (text #2) <b>must only</b> be used as a background piece for informational text, and no items can be written for <b>only</b> the literary text. If both texts are informational, items may be written to either or both texts. All dual-text stimuli sets should contain between 25-40% items written across both texts.</p> <p>When developing items from a dual-text set, Task Model 5 (short text constructed response-WR) should be written using the <u>Appropriate Stems for Dual-Text Stimuli</u> only to ensure students will have the opportunity to respond in writing to information from both texts. Between 25-40% of all other items written in the dual-text set should be written across both texts.</p> <p>The title of each text should be included in the stem when more than one text is used. Dual-text is considered long text.</p>
<b>Accessibility</b>	<p>Refer to the Smarter Balanced Assessment Consortium: Usability, Accessibility, and Accommodations Guidelines for information on accessibility.</p>
<b>Evidence Required</b>	<ol style="list-style-type: none"> <li>1. The student will determine a main idea in a text using supporting evidence.</li> <li>2. The student will summarize key details in a text using supporting evidence.</li> </ol>

<b>Allowable Item Types</b>	Multiple Choice, single correct response (MC); Multiple Choice, multiple correct response (MS); Evidence-based Select Response, two-part multiple choice response (EBSR); Hot Text, select text (ST); Short Text, constructed response (WR)
-----------------------------	---

Task Models	
<p><b>Task Model 1</b>  <b>Item Type: Multiple Choice, single correct response (MC)</b>  <b>DOK: 2</b></p>	<p><b>Task Description:</b>                      The <b>item stem</b> will pose a question that requires the student to 1) determine a main idea, 2) identify a key detail that supports a main idea, 3) identify a statement summarizing the key details, or 4) identify a key detail that is missing from a text summary.                      The <b>answer choices</b> will present four options of similar structure. The correct answer will be clearly discernible and correct. The distractors will be plausible to students who 1) misinterpret details in the text or 2) make erroneous analyses about the significance of ideas and details. The distractors should not contain sequencing errors or other errors that reflect DOK 1 skills.  <b>Distractors</b> will reflect common student errors.  <b>Rationales</b> should state the justification for the type of plausible distractor.</p> <p><b>Target Evidence Statements:</b></p> <ol style="list-style-type: none"> <li>1. The student will determine a main idea in a text using supporting evidence.</li> <li>2. The student will summarize key details in a text using supporting evidence.</li> </ol> <p><b>Appropriate Stems:</b></p> <ul style="list-style-type: none"> <li>• Which sentence <b>best</b> [tells/shows/describes] the main idea of the passage?</li> <li>• Which sentence <b>best</b> [tells/shows/describes] the main problem in the passage?</li> <li>• Which sentence <b>best</b> [tells/shows/describes] the [author’s message/main idea] in [provide section of the passage]?</li> <li>• Read the [sentence(s)/paragraph(s)]. Task Models	
<b>Task Model 2</b> <b>Item Type: Multiple Choice, multiple correct response (MS)</b> <b>DOK: 2</b>	<p><b>Task Description:</b></p> <p>The <b>item stem</b> will prompt the student to 1) identify main ideas, or 2) select the statements that should be included in a summary of key events or ideas in the text or in a portion of the text. The item stem will prompt the student to choose <b>two</b> options.</p> <p>The <b>answer choices</b> will present five to six options of similar structure. Of the options, there will be <b>two</b> correct answers. The correct answers will be relatively short statements that identify the main ideas presented in the text or statements that should be included in the text summary. The <b>distractors</b> will be relatively short statements that do not belong because they 1) include an idea or event that reflects a misinterpretation of text details or 2) include one or more ideas or events that are not key text details. The distractors will not contain details of such insignificance that the options are implausible.</p> <p><b>Distractors</b> will reflect common student errors.</p> <p><b>Rationales</b> should state the justification for the type of plausible distractor.</p> <p><b>Target Evidence Statement:</b></p> <ol style="list-style-type: none"><li>1. Task Models	
<p><b>Task Model 3</b>  <b>Item Type: Evidence-based Select Response, two-part multiple choice response (EBSR)</b>  <b>DOK: 2</b></p>	<p><b>Task Description:</b>                      This item has two parts. The <b>item stem of PART A</b> will pose a question that requires the student to determine a main idea in a text.                      The <b>answer choices of PART A</b> will present four options of similar structure. The correct answer will be a clearly discernible and correct description of a main idea of the text. The distractors will be statements that may be plausible to students who 1) misinterpret details in the text or 2) make erroneous analyses about the significance of ideas and details.                      The <b>item stem of PART B</b> will prompt the selection of detail(s) from the text that provide evidence for the identification the student made in PART A.                      The <b>answer choices of PART B</b> will present four options The correct answer will be a text detail that supports the main idea identified in Part A. The distractors will be text details that provide plausible support for the distractors in PART A.</p> <p><b>Distractors</b> will reflect common student errors.  <b>Rationales</b> should state the justification for the type of plausible distractor.</p> <p><b>NOTE:</b> Avoid answer choices in the two parts of the item that obviously correspond to one another such that selecting a particular answer choice in Part A directly determines which answer choice will be selected in Part B. Thus, some or all answer choices in Part B should provide plausible support for more than one answer choice in Part A.  <b>NOTE:</b> When using an excerpt in Part A, answer choices for Part B must come entirely from the excerpt or entirely from elsewhere in the text; they cannot be a combination of the two.</p> <p><b>Target Evidence Statement:</b></p> <ol style="list-style-type: none"> <li>The student will determine a main idea in a text using supporting evidence.</li> </ol> <p><b>Lead-In:</b> The following question has two parts. The item stem will prompt the student to choose <b>[one/two]</b> options. The <b>answer choices</b> will be selectable sentences, or paragraphs, or sections from the text, or other selectable text. The text selection will be whole, continuous, and consecutive sections taken directly from the text, or other text provided. Sentences can be grouped into multi-sentence options. There will be <b>one</b> or <b>two</b> correct answers. The correct answer(s) will be the selectable sections of text that reveal a main idea of the text or contain(s) the missing key event(s). The distractors will be lines, sentences, or paragraphs that are plausible to students who 1) misinterpret details in the text or 2) make erroneous analyses about the significance of ideas and details.</p> <p><b>Distractors</b> will reflect common student errors.  <b>Rationales</b> should state the justification for the type of plausible distractor.</p> <p><b>NOTE:</b> If there are too many defensible options (check every possibility), do not use this item type; use Multiple Choice (Task Model 1) or Multiple Select (Task Model 2).</p> <p><b>Target Evidence Statements:</b></p> <ol style="list-style-type: none"> <li>1.
