- 1) It is important to read the assignment descriptions in the [SDE Assignment Credential Manual](#) to find the code that most closely aligns to the content.
Note: The most closely aligned assignment may be located in the [CTE Assignment Credential Manuals](#).
- 2) Some assignments are (Restricted), including 00005 and 20005 and there is red text in the description to help explain what those restrictions are.
- 3) The titles for the assignment code 00005 and 20005 have been changed in an effort to reduce confusion. The word elective has been removed and replaced with the word miscellaneous to better define the intent of the assignment.
- 4) These assignment codes can never be used simply because the teacher does not hold the endorsement which aligns to the type of content being taught. The applicable assignment code and the appropriately endorsed teacher are required regardless if the course is an elective credit, content high school credit, etc.

- 5) Assignment code 20005 can be used for College and Career Ready instruction to a class/group of students and students can be tied to this person as the teacher of record. Students cannot be tied to 31000 College and Career Ready Advisor as the indent of 31000 is to advise a student vs instructing a course.
- 6) 00005 Elementary – Miscellaneous/Exploratory (K-8) (Restricted) is no longer used for health, physical education, visual arts, music, world languages.
- 7) The endorsements: 7010 All Subject K-8, 7083 Blended Early Childhood/Early Childhood Special Education (Birth-Grade 3), and 7014 Blended Elementary Education/Elementary Special Education (4-6) have been aligned to the following assignment codes to be used with content grade level in mind as applicable to the specific endorsement: 00029 World Language (K-12), 00031 Music (K-12), 00035 Visual Arts (K-12), 00051 Physical Education (K-12), 00052 Health (K-12), 24052 Spanish (K-12), 24102 French (K-12), 24252 German (K-12), 24342 Latin (K-12), 24852 American Sign Language (K-12), 33001 Teacher Librarian (K-12)
- 8) We are seeing several instances where 00005 and 20005 are being used incorrectly.

For Example:

- 00005 Elementary – Miscellaneous/Exploratory (K-8) (Restricted) assignment code CANNOT be used for English as a Second Language. ESL must be coded using assignment code 01008 English as a Second Language (K-12) or 01009 English as a Second Language – Support (K-12) and the teacher must hold either the 7126 English as a Second Language (ESL) (K-12) endorsement or the 7038 Bilingual (K-12) endorsement.
- Title I teachers who are **supplementing** the instruction of an elementary teacher of record should **not** code as 00005 but can be coded with the assignment code 00070 Supplement Instruction – Elementary (K-8) (Restricted).
- Middle level mathematics, social studies, science and English taught by a 7010 All Subjects (K-8) endorsed teacher should be coded using the applicable (5-8) content assignment codes.

02002 General Mathematics (5-8 Content)
51001 General English/Language Arts (5-8 Content)
54305 General Social Studies (5-8 Content)
53000 General Science (5-8 Content)

- 20005 should never be used for credit recovery. The applicable content assignment code must be used and there must be an Idaho certified teacher with the appropriate endorsement providing the instruction.

- Plato, NovaNet, Edmentum, OddesseyWare, Edgenuity, etc. are forms of curriculum to be used to facilitate the instruction of an Idaho certified teacher. The assignment cannot be coded as 20005. The applicable content assignment must be used and the teacher must hold the appropriate endorsement that aligns to the assignment.
- Independent Study courses should be coded according to the content being delivered by an appropriately endorsed Idaho certified teacher.
- Regardless if a course is offered as an elective, 20005 should never be used when there is an assignment code which already exists for the content. The appropriate assignment code for the content being delivered should be used and the teacher of record must hold the proper endorsement.

Here are some examples of courses coded as 20005, but **MUST** be coded with an existing assignment code:
