

# Cooperative Group Responsibilities

When working in a cooperative group, **every student** is responsible for staying on task and contributing equally to the project at hand. Each student is expected to:

1. Use inside voices when working in groups.
2. Take turns sharing.
3. Participate in active listening when others are sharing.
4. Be encouraging.
5. Be helpful.
6. Talk about problems. If the problem is not resolved after each team member has given input, then raise your hands and ask the teacher.
7. Be responsible (contribute to your group, share responsibilities for completing tasks).  
Everyone works!
