SEC. 2001. ø20 U.S.C. 6601 PURPOSE.

The purpose of this title is to provide grants to State educational agencies and subgrants to local educational agencies to—

1. increase student achievement consistent with the challenging State academic standards;
2. improve the quality and effectiveness of teachers, principals, and other school leaders;
3. increase the number of teachers, principals, and other school leaders who are effective in improving student academic achievement in schools; and
4. provide low-income and minority students greater access to effective teachers, principals, and other school leaders.

What is Different under ESSA?

- Teacher and Principal Evaluation: No provision under NCLB. ESSA permits development and implementation of teacher and principal evaluation systems that are based in part on evidence of student achievement. Idaho will not use II-A funds for this purpose.
- Highly Qualified Teachers: federal requirement under NCLB. Under ESSA, all teachers must meet applicable state certification and licensure standards.
- Allocation to LEAs formula: 20% based on school-aged population and 80% based on school-aged population living in poverty with a hold harmless not less than Eisenhower and Class Size Reduction amount in 2001 under NCLB.

Under ESSA, hold harmless is deleted.
