PURPOSE

This report serves to meet the requirements of Idaho Code §33-1028(3) to provide student enrollment counts to the legislature for the purpose of evaluating a new student-based formula for public school funding. Pursuant to Idaho Code §33-1027, the State Board of Education adopted temporary rule 08.02.01.1903 which further clarified the methodology for the calculation of student full-time enrollment (FTE). The numbers presented in this report are in accordance with the defined requirements.

Idaho Code §33-1028(3) requires a report that includes:

- (a) Total student enrollment as of October 1 and December 1 in the year the report is made, or the previous school day if those dates do not fall on a school day;
- (b) The number of at-risk students in the school district or at the public charter school as of October 1 and December 1 in the year the report is made, or the previous school day if those dates do not fall on a school day, and the number of at-risk students:
 - (i) By grade; and
 - (ii) Enrolled in an alternative school;
- (c) The number of economically disadvantaged students in the school district or at the public charter school as of October 1 and December 1 in the year the report is made, or the previous school day if those dates do not fall on a school day, and the number of students who qualify as economically disadvantaged by grade;
- (d) The number of English language learners in the school district or at the public charter school as of October 1 and December 1 in the year the report is made, or the previous school day if those dates do not fall on a school day, and the number of English language learners per grade;
- (e) The number of gifted and talented students in the school district or at the public charter school as of October 1 and December 1 in the year the report is made, or the previous school day if those dates do not fall on a school day, and the number of gifted and talented students per grade; and

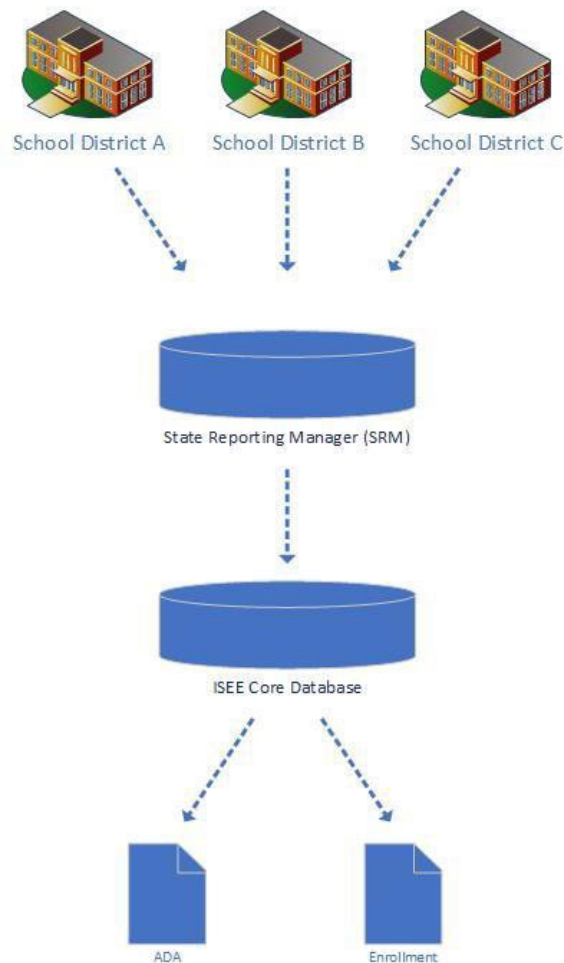

(f) The local salary schedule for the school district or public charter school in effect for the school year prior to the year the report is made.

The report must also include allocations made for each cell of the career ladder pursuant to section 33-1004B, Idaho Code.

DATA

Collection

In order to ensure a uniform method of data collection and to minimize the reporting burden on school district personnel, the student enrollment calculations are based upon data reported to the State Board of Education in the Idaho System for Educational Excellence (ISEE). This alleviates the need for an additional reporting mechanism and provides consistency and comparability to the existing ADA data collection methodology as both calculations are derived from the same set of data.

Reporting/Privacy

In accordance with federal and state laws and regulations, certain data is considered Personally Identifiable Information (PII) and must be redacted to protect the privacy of students. Any such redactions performed on the data provided in this report are done in accordance with existing requirements.
