# Foreword

This document was compiled as a guideline to be used in coding ISEE assignment forms and contains terms and their definitions found in the handbooks of standard educational terminology constituting the *State Educational Record and Report Series* and other definitions found on various websites. It is a quick reference of terms and definitions, thus promoting an achievement of comparability and compatibility of recorded and reported educational information.

# Subject Fields and Assignment Code Descriptions

The basic course code consists of a 5-digit number, with the first 2 digits corresponding to the subject area to which that course belongs. These 2 digits provide the user with a logical link to the subject fields that are used to further describe the course. An alphabetic ordering by subject is used in assigning the subject area codes (e.g., Elementary = 00, English Language and Literature = 01, Mathematics = 02, Life and Physical Sciences = 03).

The last 3 digits of the basic assignment code correspond to the order of courses as described within the subject area. Although rigorous procedures are not used to order courses within the subject areas, courses are grouped according to topics and skills covered within the courses.

Some numbers are used consistently to denote certain characteristics of the courses. Assignment codes have been grouped into the following subject fields and should be taught by certified staff holding the proper teaching credentials.

**Assignment codes for grades 6, 7 and 8 are also located in these subject matter areas but “5” has been added to the 1<sup>st</sup> digit of the subject field (e.g. English Language and Literature for grades 9-12 = 01; English Language and Literature for grades 6-8 = 51).**

<p><b>00015 Bilingual</b> (Gr. K-5)  <b>51019 Bilingual</b> (Gr. 6)</p> <p>Instruction provided to students whose primary language is something other than English, but lessons are presented in both English and the student's primary language. Designed to help students meet the same rigorous standards that all other students must meet within the same time constraints. Programs of language development that go beyond the teaching of basic vocabulary and grammar skills, and are designed to parallel English language instruction and native speakers in content and approach. In such programs, English vocabulary and mechanics are often embedded in engaging content and/or literature.</p>	<p>7038 Bilingual Ed K/12-00015            7039 Sec Bilingual Ed 6/12            - 51019</p>	<p><i>Minimum HQT requirement:            Elementary Core Content or            Secondary Content Area</i></p> <p><i><a href="#">*Click here to access the various ways to demonstrate highly qualified status according to the federal definition</a></i></p>
<p><b>00017 Literacy/Study Strategy</b> (Gr. K-5)</p> <p>Includes instruction in basic reading skills such as decoding, word recognition, and basic sound structure of English, semantics and syntax. Focuses on how reading can be utilized to scan material, research for main ideas, condense printed statements, etc. Skills in note taking, research, library use, etc. may be taught. Instruction designed to develop the skills necessary to perceive and react to patterns of written symbols and translates them into meaning. The teaching of reading is differentiated according to the number of levels and objectives. The continuous development of reading skills and vocabulary applies to all subject-matter areas, emphasizing selected skills and vocabulary appropriate to pupils' needs in different learning situations.</p>	<p>7009 All Subjects K/3            7010 All Subjects K/8            7011 All Subjects 1/8            7139 Literacy K/12</p>	<p>N/A</p>
<p><b>51066 Strategic Literacy</b> (Gr. 6)</p> <p>Strategic Literacy courses are intended to improve a student's vocabulary, critical-thinking and analysis skills, or reading rate and comprehension level. Although these courses typically emphasize works of fiction, they may also include works of nonfiction (including textbooks). Strategic Literacy courses often have a time-management focus, offering strategies for note-taking or for understanding and evaluating the important points of a text.</p>	<p>7010 All Subjects K/8            7011 All Subjects 1/8            7120 English 6/12            7138 Literacy 6/12            7139 Literacy K/12            8120 English 6/9            8138 Literacy 6/9</p>	<p>N/A</p>

<p><b>00080 Special Ed - Elementary Instruction (Gr. 1-6)</b>            The differentialized curriculum for handicapped pupils reflects an increasing awareness of the individual needs of children. Many children cannot benefit from basic education without special education classes. Handicapped children present learning difficulties, sensory and motor impairments, which require careful study for successful adaptation of instruction. Teachers of exceptional children integrate professional information from psychology, education and medicine for instruction and therapeutic services. Consequently, special education as applied for each type of handicapped child has developed some distinctive techniques and materials that distinguish it from regular classroom instruction. <u>Special education teacher providing instruction in a self-contained classroom model.</u></p>	7019 Early Child Spec PreK/3 7029 Generalist K/12 7031 Serious/Emotion K/12 7032 Sev Retardation K/12 7033 Multiple Impair K/12 7034 Physical Impair K/12  7083 Early Child Spec Birth/3 -(Through 3 <sup>rd</sup> grade only)	<p><b>Must be highly qualified in            Elementary Core Content</b></p> <p><a href="#"><i>*Click here to access the various ways to demonstrate highly qualified status according to the federal definition</i></a></p>

<p><b>10101 Network Technology</b> (Gr. 9-12)            Network Technology courses address the technology involved in the transmission of data between and among computers through data lines, telephone lines, or other transmission media (such as hard wiring, cable television networks, radio waves, and so on). These courses may emphasize the capabilities of networks, network technology itself, or both. Students typically learn about network capabilities—including electronic mail, public networks, and electronic bulletin boards—and network technology—including network software, hardware, and peripherals involved in setting up and maintaining a computer network.</p>	4026 Network Supp 6/12 6153 Network Tech 6/12 7321 Computer Apps 6/12 7980 Industrial Arts 6/12 7982 Industrial Tech 6/12 8321 Computer Apps 6/9	N/A
<p><b>10102 Network Systems</b> (Gr. 9-12)            Networking Systems courses are designed to provide students with the opportunity to understand and work with hubs, switches, and routers. Students develop an understanding of LAN (local area network), WAN (wide area network), wireless connectivity, and Internet-based communications with a strong emphasis on network function, design, and installation practices. Students acquire skills in the design, installation, maintenance, and management of network systems that may help them obtain network certification.</p>	4026 Network Supp 6/12 6153 Network Tech 6/12 7093 Business Tech Ed 6/12 7930 Bus Ed-Office Occ 6/12 7937 Bus Ed Accounting 6/12 7939 Basic Bus 6/12 7980 Ind Arts 6/12 7982 Ind Tech 6/12	N/A
